## “Suderman Estimating Course”

### What will you Learn?

This two day hands-on, course will take you from the start of an estimate to the final bid price. Your estimates will be done in a systematic way. The forms supplied are easy to follow and will guide you step by step. You will finalize a tender and will add job costs and all other costs. The labour manual will go home with you for continual use.

### Course Costs include:

Suderman labour manual, take-off and estimating forms, scale, pencils, and calculator. Lunch & refreshments are also provided.

**Course #1** – is an intense 2 day hands on course designed to introduce the basic principals of Electrical Estimating and its applications.

**Course #2** – is an in-depth hands-on course that provides the participant with the opportunity to learn advance electrical estimating techniques for systems, distribution, service equipment, motor power and control.
